SeekSire Parentage (for calf and parent samples) <i>Please note: You must verify <u>prior</u> to submission that all relevant parents have been genotyped and are on file with Neogen GeneSeek. **Only choose if not processing on Bovine 50K</i>	\$15.00	X		
BVD PI (available for tissue or hair samples only)	\$4.00	X		
Sample Pull (for any inventory samples that have additional testing requested)	\$2.00	X		
<i>Hair Processing Fee – included on all hair samples processed</i>	\$4.00	X		

*Sales tax is applicable in some states and may be applied when invoiced. If you are unsure whether to add sales tax, we recommend paying with credit card.

Total Amount Due*

Note for Registering Animals:

Our open registry requires ALL bulls to have a GGP 50K and all animals, either sex, from unregistered parents. We accept female offspring of two registered parents without requiring a GGP 50K. The animal's registration number is not the same as the CTL#, both ID numbers may be obtained from the registry office. An animal will only have a CTL number if previously genotyped.

Submission Notes:
